

## CITRA FORCE (CF)

A natural, biodegradable, water soluble, cleaner/degreaser concentrate

- ✓ Non-conductive to 30kV
- ✓ Degreasing electric motors, generators and engine room floors
- ✓ Cleaning and washing decks
- ✓ For showers, sinks and general cleaning
- ✓ Removes carbon
- ✓ Removes grease, tar, oils, silicone, waxes and adhesives
- ✓ Cleans stainless and aluminium without streaking
- ✓ Spot cleaning of carpets

natural products for a better environment

From inboard and outboard motors...to pleasure craft and commercial vessels...

The Lanotec range of products are non toxic, biodegradable and environmentally friendly, which makes them safe to use around our waterways. Lanotec's range of natural rust inhibitors, penetrants, sealants, release agents, cleaners and degreasers are ideally suited to the running and maintenance of all marine vessels and their equipment. The protection given by Lanotec's lanolin based products will help save downtime as well as reducing costs by replacing many of the consumables currently being used with the Lanotec range of natural products.

Leaders in Lanolin Technology

# Marine

# Sealants & Lubricants

Protecting our waterways whilst saving time and money

# ✓ Salt Spray, Acid & Alkaline, Electrical Resistance tested to NATA specifications

Australia's shearing sheds stand today as testament to the unequalled protection given by lanolin, a unique, natural product secreted by sheep to form a natural protective coating on wool fibres, which has been used by mariners for thousands of years. Lanotec's lanolin products form a long term barrier against the destructive effects of moisture, salt & acid corrosion which are all prevalent in marine environments.

## General Purpose (GP)

For all round lubrication and protection

- ✓ Non conductive to 70kV
- ✓ Safe protection for electrics and electronics such as - radios, aerials, ECU's, circuit boards, connectors, switchgear and navigation lights
- ✓ For electric motors, alternators & generators
- ✓ Inside cowlings & over powerheads
- ✓ Inside Air-Conditioning units.
- ✓ Protects and polishes aluminium & fibreglass
- ✓ Protects and frees up tools, fittings, hinges, locks, zippers
- ✓ Rejuvenates leather, vinyl and plastics
- ✓ Protects and lubricates fishing rods and reels

## Heavy Duty (HD)

For harder working, harder wearing areas

- ✓ Non conductive to 70kV
- ✓ Wire ropes, cables and chains
- ✓ Lubricate and protect moving parts such as pulleys, blocks, swivels and turnbuckles
- ✓ Hydraulic hoses and fittings
- ✓ Internal voids and ballast tanks
- ✓ Inside chain and anchor lockers
- ✓ Boat trailer frames, springs and wheels
- ✓ Battery terminals, boxes and connectors
- ✓ Outside protection for deck cargo

## Type 'A' Grease (GS)

Not to be used inside bearings

- ✓ Non conductive to 70kV
- ✓ Non perishing for "O" rings and seals
- ✓ Lubricant for rubber hoses, linkages, pivot pins and bushes
- ✓ Corrosion protection for valves and pumps
- ✓ Anti seize for threaded rods, nuts, bolts, shackles and turnbuckles
- ✓ A barrier against dissimilar metals
- ✓ Stops galling of stainless steel and aluminium
- ✓ Corrosion and moisture proofing for multi pin connectors

## Timber Seal (TS)

Keep your timber in outstanding condition

- ✓ Repels moisture
- ✓ Use on decks, jetties and wharves as well as cabin fittings
- ✓ Helps protection against drying, splitting and wood rot
- ✓ Highlights the grain, seals and protects
- ✓ Rejuvenates laminate and dressed timber
- ✓ Can be polished to produce a smooth, attractive, natural timber finish.
- ✓ Aids traction in wet conditions

penetrates, lubricates, protects, and preserves - repels salt water, inhibits rust, won't wash off  
non-toxic, non-carcinogenic, biodegradable, environmentally friendly
