

Protect your wire ropes with Nobles Wire Rope Lubricants

NOBLES WIRE ROPE LUBRICANT

Suitable For:

- Running and standing wire ropes in Mining, Marine, Oil & Gas, Construction and Industrial environments

Benefits:

- An exceptional wire rope lubricant formulated with anti-drip wax polymers to reduce drip and fling off
- Fortified with penetrating anti-rust and lubricating additives to provide complete internal and external protection
- Easy to apply by brush, drip or spray can
- Available in convenient 400g spray can, 4L and 20L pails, or economical 205L drums

NOBLES HD WIRE ROPE GREASE

Suitable For:

- Suspension ropes, running and standing ropes in extreme environments, and also suitable for sheaves

Benefits:

- Contains no bitumen or wax
- Exceptional corrosion resistance
- Formulated with extreme anti-wear and pressure additives, combined with unique penetrating oils to retard internal fretting
- Available in 20kg pails or 180kg drums

NOBLES EF WIRE ROPE LUBRICANT

Suitable For:

- All wire ropes, sheaves and drums where environmentally friendly lubricants are required.
- Available in 220 Grade for cool conditions or smaller diameter ropes, and 460 Grade for hot conditions or large diameter ropes

Benefits:

- Contains all the performance of Nobles standard Wire Rope Lubricant, while minimising the impact on the environment.
- Specially formulated from ultra pure mineral oils of pristine quality
- High resistance to oxidation
- Can be used in food processing environments
- Available in 20L pails or 205L drums
