

Nobles Ratchet Loadbinder

The Nobles Ratchet Load binder is made by Nobles in Australia, and is based around our Rigging Screw. Ratchet load binders are well suited for heavy duty tensioning applications as very high tensioning forces can be achieved and more precise adjustment is available. Ratchet load binders also have no kick back when released.

LRR M33 Ratchet Loadbinder 29206 can be supplied with or without jaw bolts. With correct jaw bolts and testing the M33 Ratchet Loadbinder would have a lifting capacity of 8 Tonne. As listed below 29206 is supplied without jaw bolts and testing.
